

Mechanical Fitters & Turners

Are you passionate about hydraulics & pneumatics?

Do you like working on a range of different projects?

Yes? Then here's an opportunity for you!

Verseng Group is a multifaceted mechanical engineering/manufacturing company, specialising in CNC machining, fabrication, manufacture of special purpose machinery and Ground Support Equipment for Defence, Mining, Rail, Service and Heavy Industry.

We need talented Fitter and Turners to join our busy team. You will have to opportunity to work on varied and interesting projects and be a part of a talented team in a friendly, but fast paced working environment.

You will be working primarily on our site and attending customer sites when needed.

We are looking for people with

- Strong skills across a broad range of fitting and turning tasks
- Hydraulic and pneumatic experience essential
- Australian Trade qualification
- Ability to pass background checks (working with children, police check)

Due to customer site rules, you must also be able to supply proof of COVID-19 vaccination.

We are looking for a reliable team player with a positive attitude and the ability to communicate effectively.

Verseng Group offers long term employment and opportunities for growth. Dependant on your experience and abilities hourly rates up to \$42.00 per hour are on offer.

We also have a fantastic 'Swing Shift' roster to offer:

Our swing shift has you working Monday – Thursday one week and Tuesday to Friday the next week. This unique arrangement gives you a **4-day weekend** every second weekend, whilst keeping your standard weekend on the week in between!

Interested? Get in touch! Positions are available now!
