## CNC Operators & Programmers

Set and operate 3-5 axis CNC machines like a pro?

Are you a whizz with SolidCAM or Fusion360?

---

*Yes? Then here's an opportunity for you!*

Verseng Group is a multifaceted mechanical engineering/manufacturing company, specialising in CNC machining, fabrication, manufacture of special purpose machinery and Ground Support Equipment for Defence, Mining, Rail and Heavy Industry.

We need talented CNC Operators/Programmers to join our busy team. You will have to opportunity to work on varied and interesting project and be a part of a great team in a friendly, but fast paced working environment.

### About our Swing Shift:

Our swing shift has you working Monday – Thursday one week and Tuesday to Friday the next week. This unique arrangement gives you a **4-day weekend** every second weekend, whilst keeping your standard weekend on the week in between!

We are looking for people with strong experience in

- CNC Machining (3-5 axis)
- Online/Offline programming with Fanuc, Heidenhain, Mazatrol, Siemen's controllers
- CAD/CAM Software (SolidCAM / Fusion360 or similar)

As well as having these skills, we are looking for a team player, with a positive attitude and the ability to effectively communicate with a broad range of people.

It is essential that you can read and understand engineering drawings, perform accurate measurements and are familiar with the tools to do so.

Verseng Group offers long term employment and opportunities for growth. Dependant on your experience and abilities hourly rates up to \$42.00 per hour are on offer.

Interested? If you are a team player who is efficient, honest, and reliable - we want to speak to you!

Positions are available now!
